# Rapp-it Emergency Pipe Repair

Rapp-it is roll of fibreglass bandage impregnated with water-activated resin which is ready to use once the foil pouch is opened. You simply immerse Rapp-it in water for 10 seconds, then apply by wrapping around the damaged area. A successful repair can be achieved in 30 minutes.

## SAVE \$100's ON COSTLY DOWN TIME!

A leaking or damaged pipe could threaten to shut down your entire operation, which could cost you thousands of dollars in delays. Leaks can happen anywhere, anytime and without warning. There's no better product for instant on-the-job repairs. No wonder BHP and Mt Isa Mines stock and use Rapp-it. It's essential to cover yourself and your company by stocking Rapp-it emergency repair kits. You never know when you'll need Rapp-it!
